## about us

One of the most recognized names in the flooring industry, Mohawk is the leading producer of floor covering products in the U.S. and Europe. As a publicly held U.S. flooring company with a history going back over 100 years, Mohawk has an unrivaled reputation for first-class customer service, excellent product quality, outstanding career opportunities, and remarkable innovation in technology and design.

Mohawk features the real beauty of hardwood flooring in a variety of colors, widths, and species, with worry free options such as Scotchgard™ Advanced Repel Technology and Uniclic® Glueless Technology. Mohawk hardwoods also feature the benefit of environmental stewardship through the use of PureBond® Technology, one of the key features of the Mohawk Greenworks™ Program.

Stylish laminate planks and tiles celebrate the natural diversity of hardwood, tile, and stone, with a multitude of colors, textures, and patterns. All laminate styles feature Uniclic® Glueless Technology, which means secure locking action even when spaces get tight. Mohawk laminate core boards are made from 74% pre-consumer recycled content and fall under the Mohawk Greenworks umbrella for environmental stewardship.

# MOHAWK®

## Laminate

Mohawk Laminates have a multitude of colors, textures, patterns, and styles. Our surface textures are intentionally designed to add depth, authenticity, and character to a floor. They're also intended to resist heat, burns, scuffs, scratches, fading, and abrasions.

Mohawk laminates are made with one of the most moisture-resistant cores available, and all our laminates are backed by Mohawk's own Lifetime Structural Warranties.

### Benefits of Laminate:

- Our ScratchGuard™ Advanced Finish Protection helps prevent the micro scratches caused by everyday dust and dirt.
- Installation can be over dry concrete slabs, wooden subfloors, many existing floors, even on top of radiant heat mounted under the floor.
- All Mohawk Laminates are NALFA Quality Certified Laminate Flooring and complies with all CARB (California Air Resource Board) requirements

## Engineered Hardwood

Engineered hardwood flooring is a product that has the natural characteristics of the selected wood species. The engineered product has been designed to provide greater stability, particularly where moisture or heat pose problems for solid hardwood floors.

### Benefits of Engineered Hardwood:

- Ability to be installed on, above, or below grade.
- Multiple installation options available, depending upon application and product.
- Some have our *Scotchgard*<sup>®</sup> Advanced Repel Technology feature which protects against stains and everyday messes and eliminates the need for frequent cleaning.
- Domestically produced products have our *\*PureBond*<sup>®</sup> feature which reduces unnecessary formaldehyde for improved air quality.

Product Shown: Tagliare Amber

\*PureBond<sup>®</sup> is a registered trademark of Columbia Forest Products, Inc. in the US and other countries. Used under license

## Engineered Hardwood - Kailani

**description:** ENGINEERED HARDWOOD

## Strand Woven Bamboo

Whether it's the natural or baked natural colors of our Honalo line or the handscraped visuals of our Mahana line, Mohawk Strand Woven Bamboo is the gorgeous, green addition to our collection of hardwood flooring.

Combining exotic beauty with supreme durability, Strand Woven Bamboo represents a renewable alternative to traditional hardwoods.

### Benefits of Strand Woven Bamboo:

- Twice as hard as domestic oak, harder and more dense than traditional bamboo.
- \*LEED recognized rapid renewable resource.
- Bamboo can be harvested every 5 to 7 years.
- Strand Woven Bamboo flooring uses 100% of the bamboo plant.

Product Shown: Mahana Rustic Baked Natural Strand Woven Bamboo

\*FloorScore® tests in accordance with CHPS Section 01350, which was established by the California Office of Environmental Health Hazard Assessment and Environmental Protection Agency (EPA). The U.S. Green Building Council accepts the FloorScore certified products as compliant with LEED® Green Building Rating Systems™ for low-emitting materials.
