# SENTINEL SERVICE

— Fire Protection Industries, Inc. —

## about us

Sentinel has been helping protect people and property across the Mid-Atlantic Region for over 50 years. As a member of the Moran Group, we have provided safety solutions for property owners' coast to coast. We offer a broad range of life safety, property protection systems, and service programs designed to meet the specific needs of each home and its occupants. Our highly trained staff has earned the reputation for being knowledgeable, dependable, and customer-focused. We take helping to protect the properties of your friends and families very seriously.

At Sentinel, we understand the intricacies of local codes and regulations. We know how to achieve their goals while adding value for the owner. When it comes to the design, installation, and monitoring of fire sprinkler, fire alarm and security systems, we are committed to delivering a level of service that exceeds our customer expectations. Sentinel provides the property owner a partner who uses technology wisely to protect your investment and provides protection to you and your family from unfriendly fire and the risks of intrusion.

### GSM ALARM SIGNAL TRANSMISSION

GSM is the communication method of AlarmNet which uses cellular radio transmission rather than traditional telephone lines. Most alarm companies send monthly test signals, Sentinel Security sends a daily test signal to ensure proper alarm transmission. The alarm monitoring package includes up to 10 alarm signals per month. If you exceed your data package alarm signal count, you may be subject to overage charges. Daily test signals are not counted against the package amount.

### FEATURES & BENEFITS

- Expert, reliable monitoring services and superior quality products.
- Security Packages available with additional options to fit your specific life safety plan.
- Smoke and carbon monoxide detectors will monitor 24/7 even when the system is not armed.
- Potential home owner insurance rate reduction.
- **The home security packages include a three year alarm monitoring service as of the closing of your mortgage.**

#### TOTAL CONNECT:

Receive security alerts via text message or Email. Remotely arm or disarm your security system via Smartphone, PDA and PC

#### TWO-WAY VOICE:

Two-way voice communication through the keypad which allows the customer to speak to a dispatcher directly.

\*Three (3) minutes are included each month for each subscriber using Two-Way Voice.

#### TOTAL CONNECT VIDEO:

With our easy-to-use video system, this service lets you look in on your family from almost anywhere through your Smartphone, PDA, PC or Tablet.
